

## About

Catney Web Services was formed in May 2000 and we have been building our customer base ever since.

We are VAT registered, a member of the Solihull Chamber of Commerce and also have been a long standing committee member of the Solihull Branch of the Federation of Small Businesses.

Our portfolio ranges from one page web sites to large e-commerce sites selling over a thousand products. One of our main aims is to ensure that we keep abreast of the ever changing internet applications so that we can offer our customers low or even no cost solutions. We attend seminars and training courses offered by Open Advantage, the open source group of Advantage West Midlands.

Our latest venture is to offer our own hosting packages, thus saving our customers even more money.

Although our main client base is in the West Midlands, we have customers from Solihull to the Sussex downs, Portugal, Gibraltar and America.

Our aim is to provide a friendly, affordable, helpful service and with the number of new clients from personal recommendation that we have, we hope we are succeeding!
